PROFESSIONAL SUMMARY

Business operator turned product manager who grew three family retail and e-commerce businesses ~30% YoY over seven years while shipping 20+ AI products 0→1. Pairs P&L ownership and customer empathy with core PM craft: discovery, user research, prioritization, PRDs, roadmapping, and metrics.

KEY ACHIEVEMENTS

- Grew two family retail stores ~30% YoY over 7 years by owning P&L, pricing, inventory, and 20+ supplier relationships hands-on.
- Shipped 20+ AI products 0→1 — 4+ in daily production use — by building a real working tool for every concept learned.
- Cut billing time 83% (2 min → 20 s) by building a self-made GST-compliant billing app, now in daily use.
- Cut Meesho listing time ~90% (5 min → 30 s) by building a self-healing automation creating thousands of one-click listings.
- Scored 90%+ across 5 consecutive modules of BITSoM × Masai's Agentic & Generative AI PM program while running 3 businesses.

PROFESSIONAL EXPERIENCE

Business Operations Lead & De Facto Product Manager | 2018 – Present

Neha Chappal Store, Krishna Handloom & Shree Radhe Trading Co. · Hansi, Haryana

- Grew two retail businesses and their e-commerce arm ~30% YoY by owning end-to-end P&L, margin engineering across retail, wholesale, and marketplace channels, inventory, and 20+ supplier relationships.
- Shipped 4 production tools now in daily use by acting as de facto PM — identifying the highest-friction operational problems, prioritizing by impact, and building each as a real product.
- Grew organic reach from near-zero to steady traffic at ₹0 paid spend by owning full SEO — keyword research and A/B-tested product descriptions across the catalog.
- Replaced an outsourced photography agency by building a Gemini creative pipeline producing 5 marketplace-ready campaign variants per product from multi-angle shots.

Product Management Student — Agentic & Generative AI | 2025 – Present

BITSoM × Masai · Remote

- Scored 90%+ across 5 consecutive modules while operating 3 businesses by pressure-testing every concept — PRDs, OKRs, JTBD, roadmapping, GTM, RAG, prompt engineering, and evals — into 20+ shipped AI tools.

FLAGSHIP PROJECTS

Voice Matters — Vernacular Voice-AI Welfare Assistant [Sarvam API](#) · [OpenAI Embeddings](#) · [Pinecone RAG](#) · [FastAPI](#) · [PostgreSQL](#) [Live](#) · [Repo](#)

- Defined the core problem and product strategy by running user research across 3 validated personas — finding that low-literacy Tier 2–3 workers miss welfare schemes they qualify for.
- Shipped a 6-screen PWA with AI hallucination held below 0.5% by owning the PRD, 60+ Jira tickets across 3 sprints, a 9-pillar ethics framework, and leading a 4-person team.

NehaBillingApp — GST-Compliant Billing App [React](#) · [Tailwind](#) [Repo](#)

- Cut per-invoice billing time 83% (2 min → 20 s) by building a GST-compliant billing SPA with auto CGST/SGST, FY invoice numbering, customer records, and CSV export — in daily production use.

Marketplace Listing Agents — Meesho & Flipkart Seller Hub [React](#) · [Node](#) · [Playwright](#) · [Gemini](#) [Meesho](#) · [Flipkart](#)

- Cut catalog listing time ~90% (5 min → 30 s) by building a self-healing record-replay agent that turns one walkthrough into thousands of one-click listings, recovering via Gemini on DOM changes, then ported the same engine to Flipkart Seller Hub.

PM-Trainer — Daily PM Practice Platform [Gemini](#) · [React 19](#) · [TypeScript](#) [Live](#) · [Repo](#)

- Reached ~8.5/10 beta rating with <5% hallucination by building an AI coach that generates daily PM scenarios, grades like a Senior PM, and drives retention with XP and streaks, enforced by a strict JSON schema.
