

YATIN BHALLA

AI Product Manager

Hansi, Haryana, India, 125033 · yatinbhalla42@gmail.com · +91 9254706685 · linkedin.com/in/yatinbhalla42 · github.com/yatinbhalla

PROFESSIONAL SUMMARY

Business operator turned product manager who grew three family retail and e-commerce businesses ~30% YoY over seven years while shipping 20+ AI products 0→1. Blends customer empathy and operational ownership with PM craft - user research, prioritization, PRDs, and metrics.

KEY ACHIEVEMENTS

- Grew two family retail stores ~30% YoY over 7 years by owning P&L, pricing, inventory, and 20+ supplier relationships hands-on.
- Shipped 20+ AI products 0→1 - 4+ in daily production use - by building a real working tool for every concept learned.
- Cut billing time 83% (2 min → 20 s) by building a self-made GST-compliant billing app, now in daily use.
- Cut Meesho listing time ~90% (5 min → 30 s) by building a self-healing automation creating thousands of one-click listings.
- Scored 90%+ across 5 consecutive modules in BITSoM × Masai's PM with Agentic & Generative AI program while running 3 businesses.

PROFESSIONAL EXPERIENCE

Business Operations Lead & De Facto Product Manager | 2018 - Present

Neha Chappal Store, Krishna Handloom & Shree Radhe Trading Co. · Hansi, Haryana

- Grew two retail businesses and their e-commerce arm ~30% YoY by owning end-to-end P&L, margin engineering across retail, wholesale, and marketplace channels, inventory, and 20+ supplier relationships.
- Spearheaded problem discovery for internal SaaS and digital product environments, shipping 4 production tools by analyzing user feedback and product usage data. Researched market trends and competitors to define clear product requirements, driving automation through Agile product development processes
- Grew organic reach from near-zero to steady traffic at ₹0 paid spend by owning full SEO - keyword research and A/B-tested product descriptions across the catalog.
- Replaced an outsourced photography agency by building a Gemini creative pipeline producing 5 marketplace-ready campaign variants per product from multi-angle shots.

Product Management Student - Agentic & Generative AI | 2025 - Present

BITSoM × Masai · Remote

- Scored 90%+ across 5 consecutive modules while operating 3 businesses by pressure-testing every concept - PRDs, OKRs, JTBD, roadmapping, GTM, RAG, prompt engineering, and evals - into 20+ shipped AI tools.

FLAGSHIP PROJECTS

Voice Matters - Vernacular Voice-AI Welfare Assistant Sarvam API · OpenAI Embeddings · Pinecone RAG · FastAPI · PostgreSQL **Live · Repo**

- Conducted customer interviews and user research, synthesized insights from 10 customer interviews across 3 validated personas to define product requirements. Authored comprehensive user stories and acceptance criteria, collaborating to translate requirements into wireframes and user flows using fundamental UX principles. Collaborated deeply with engineering during development and testing phases to deliver a scalable AI solution
- Engineered a rapid AI prototype utilizing Python, LLM APIs, and agent frameworks (FastAPI, Sarvam, Pinecone RAG). Designed a forward-deployed AI solution with hallucination <0.5%, translating user needs into scalable capabilities.

NehaBillingApp - GST-Compliant Billing App React · Tailwind **Repo**

- Cut per-invoice billing time 83% (2 min → 20 s) by building a GST-compliant billing SPA with auto CGST/SGST, FY invoice numbering, customer records, and CSV export - in daily production use.

Meesho-Listing - Self-Healing Catalog Automation React · Node · Playwright · Gemini **Repo**

- Developed a self-healing copilot automation using Claude code & Gemini API, optimizing core merchant workflows and cutting listing time by ~90%. Acted as the first builder to move from an idea to a validated proof-of-concept (POC) in weeks

PM-Trainer - Daily PM Practice Platform Gemini · React 19 · TypeScript **Live · Repo**

- Supported the end-to-end delivery of an AI coaching platform utilizing Agile/Scrum methodologies and sprint ceremonies. Monitored key feature metrics and analyzed usage data to identify areas for optimization, successfully driving retention and achieving an ~8.5/10 beta rating
